

TITANIUM HAMMERS

Stiletto Warranty Evaluation Aid for Titanium Tools

(see Stiletto Warranty policy)

Non-defective material examples

Face milling is worn out completely, chipping and pitting at edge of face, result of striking hardened Steel tools. Damage not covered by warranty.

Face is worn and "mushroomed", or a lip is formed, by striking hardened steel tools such as Cats Paw or steel stakes. Damage not covered by warranty.

Claw tips worn down from chipping concrete or digging in rocky soil. Note scrapes, scratches, and indentations near claw tips. Damage not covered by warranty.

Any misuse, abuse, alteration, or normal service wear & tear is not covered by warranty.

Defective material examples

Face has smooth depressions and/or open voids or cavities in face. Defective Titanium casting. Covered under warranty.

Edge of face has damage caused by rounded, smooth-looking casting defects. Covered under warranty.

Tip of claw broken due to casting defects. No apparent abuse to tool. Covered under warranty.

All warranty claims must be reported to Stiletto Customer Service @ (800) 987-1849 before action is taken.
